

*"Parenting shouldn't end  
when relationships do"*

## *Child Contact Centre's Celebrated.*

Every day in child contact centres across the NACCC Network, Magic happens. This is only because of the commitment dedication and professionalism of our members.

We know that 2020 has been a challenging year for all and we are equally sure that things can only get better from here.

We're looking to celebrate those centres, members and individuals. If you know of an example let us know.

We're hoping to hold an event in April 2021 where we will celebrate these achievements and issue some awards. [Nominations can be completed here](#) and our focus for this inaugural event will be those going the extra mile during the current pandemic.

So that plans do not change, this will most likely be a virtual event this year, but we plan to continue this indefinitely and future sessions will be integrated into the NACCC AGM.

[Nominations](#) will close in February, but please do not wait till then [nominate](#) your colleagues or centre, whilst its fresh in your mind. You can nominate more than one person, or for more than one achievement.
